### **Outsourced Online MSDS Management in a Secure Environment**

If you have limited resources, then outsourcing your MSDS Management to us may be your best answer. In this solution, you will have access to all the features and benefits available on the Hosted Online MSDS Management Solution

The main difference is that we will manage your Online MSDS Management Site for you which will include setting it up according to your specifications and then scanning and indexing all your MSDSs and loading them on your site. We will also be responsible for maintaining your site going forward and ensuring that your site is always up to date so your employees have access to the most current MSDSs and related information.

The only additional charge for an outsourced solution compared to managing the Hosted Online MSDS Management Solution yourself is \$9/MSDS/yr for scanning, indexing, loading and managing your MSDSs. It's that simple! It's that cost effective!
