Safety Training CD

ATLANTA, GA.—IMTEK is proud to offer a powerful user friendly interactive CD which comes fully loaded with over 50 safety and environmental courses that can be used immediately to provide training required by OSHA, WHMIS and other safety training regulations. The high quality easy to follow courses were designed by Environmental, Health & Safety (EHS) professionals with many years hands-on experience working in diverse manufacturing, distribution, retail and health care environments. As a result, our comprehensive Safety Training CD consists of an effective and easy way to deliver practical safety training across the entire enterprise.

No Special Software or Hardware Required

The Safety Training CD does not require any specialized software installation, new hardware or IT resources on the client's part. All you need is Windows and Internet Explorer to use this CD.

Safety Training Made Simple & Cost Effective

Our CD makes safety training management and compliance easy. Start-up is simple and your employees can literally start using their safety training CD immediately. Our courses will also enable you to improve safety at your facility while reducing your training costs.

Safety & Environmental Training Courses Available

Above is a list of our professionally created courses that are available on our Safety Training CD. Required courses can be taken by employees 24/7/365 from any computer with Internet Explorer. Most courses include quizzes and a student must get at least 70% to pass. Employees can also print a Certificate of Completion for their records after they successfully pass a course and should give you a copy for compliance purposes.

Bundled Web Based MSDS Application and Safety Training CD Special Offer

For a limited time, we are offering a special buy one, get 10 free deal! When you purchase one Web Based MSDS Management Application, you get 10 Safety CDs with over 50 interactive safety and environmental courses absolutely free!
